JUAN MANUEL CORBERA

Senior Backend Engineer | .NET Core & Cloud Specialist

Buenos Aires, Argentina | +54 11 6691 7513 | jmcorbera@gmail.com
http://www.linkedin.com/in/juan-manuel-corbera | https://github.com/jmcorbera

PROFESSIONAL SUMMARY

Senior Backend Engineer with 19+ years of experience designing scalable, high-performance distributed systems. Strong expertise in .NET 5+, C#, and AWS. Extensive background in fintech, digital wallets, financial platforms, and high-transaction systems. Skilled in leading architectural modernization initiatives, migrating legacy systems to micro-services, and implementing event-driven architectures with a focus on scalability, observability, and performance optimization.

TECHNICAL SKILLS

- **Languages:** C#, Java, Python, JavaScript, TypeScript.
- **Frameworks:** .NET 5+, .NET Framework, ASP.NET Core, ASP.NET MVC, EF Core, WPF, WCF.
- **Architecture & Security:** Microservices, Clean Architecture, CQRS, Event-Driven Architecture, REST APIs, Distributed Systems, JWT, OAuth2 , Token-Based Security
- **Cloud & DevOps:** AWS (SQS, Cognito, S3, SES, SAM, CloudFormation), Docker, Git, Azure DevOps.
- **Databases:** SQL Server, MySQL, PostgreSQL, MongoDB, DynamoDB, Redis, Elasticsearch
- **Observability:** OpenTelemetry, Distributed Tracing
- **AI & Productivity Tools:** Prompt Engineering, ChatGPT API, Cursor AI, Vibe Coding

---

PROFESSIONAL EXPERIENCE

Grid Dynamics - Senior Backend Developer (.NET 8**)**
April 2024 – Present

- Designed and implemented high-availability microservices for digital wallet and FX exchange operations.
- Led Core Banking integration with Mambu, ensuring secure and consistent financial transactions.
- Implemented authentication and authorization mechanisms using JWT and OAuth2
- Applied Clean Architecture principles to structure scalable backend services.
- Modeled domain logic using DDD with entities, value objects, aggregates, repositories.
- Applied CQRS pattern and optimized EF Core queries to improve scalability and maintainability.
- Implemented asynchronous messaging with Amazon SQS in event-driven architecture.
- Designed caching and database optimization strategies for high-volume transactional workloads.
- Implemented distributed tracing using OpenTelemetry to enhance system observability.
- Integrated AWS services including SQS, Cognito, S3, and SES according to security best practices.
- Participated in backend architecture and technical decision-making, mentoring developers and reviewing code.

Technologies: .NET 8, C#, EF Core 8, CQRS, SQL Server, MySQL, AWS (SQS, Cognito, S3, SES), Azure DevOps, OpenTelemetry, Mambu, Salesforce.

Agrofy SA - Senior Backend Developer (.NET Core)
April 2022 – March 2024

- Developed and maintained backend services for a large-scale e-commerce platform.
- Optimized Elasticsearch queries to improve search relevance and performance.
- Designed scalable cloud infrastructure using AWS SAM and CloudFormation.
- Integrated an AI-powered recommendation system using prompt engineering techniques.
- Optimized APIs and database queries, reducing response times and improving throughput.

Technologies: C#, .NET Core, SQL Server, MongoDB, Redis, AWS SAM, AWS CloudFormation, Elasticsearch, Prompt Engineering

Credipaz SA - Software Architecture Lead
December 2015 – March 202

- Led system architecture definition for a financial platform.
- Directed modernization from legacy WCF services to RESTful APIs in .NET Core.
- Designed database optimization strategies ensuring ACID compliance and financial integrity.
- Defined technical standards and mentored the development team.
- Improved scalability and maintainability through architectural refactoring initiatives.

Technologies: C#, .NET Core, WCF, ASP.NET MVC, SQL Server 2016, Telerik Controls

Janus Automation SA - .NET Technical Lead & Developer
August 2009 – November 2015

- Developed enterprise desktop and web applications for industrial management systems (steel, oil & gas).
- Designed and optimized SQL Server databases for high-volume industrial data processing.
- Built responsive and interactive UI solutions, improving usability and system adoption.

Technologies: WPF, ASP.NET MVC 4, Knockout.js, Bootstrap 3, C#, SQL Server 2012

EDUCATION

- **Bachelor's Degree in Systems** | National University of General Sarmiento
  03/2020 – 12/2025
- **University Technician in Information** | National University of General Sarmiento
  07/2017 – 12/2020
- **Systems Analyst** | Leopoldo Marechal Institute
  03/1999 – 06/2002

CERTIFICATIONS

- **Cursor AI for Beginners :** AI Coding Crash Course | Udemy
- **English Certification :** Upper Intermediate – Module 1 (CEFR C1) | Nulinga

---

LANGUAGES

- **English:** Upper-intermediate
- **Spanish:** Native
